

Changing the System Information Sheet

This camp is an intensive learning process designed to introduce young women into the growing field of STEM. We expect that all campers will be available and engaged throughout the camp.

Changing the SySTEM is free of charge, and our team wants to ensure that all students signed up will make the most of their experience.

The campers will be split into 4 groups, and each group will participate in a main lesson and a mini-lesson daily. There will be 3 presentations from professional women in STEM over the course of the camp. We strive to ensure that camp is a fun and engaging experience for everyone involved, with optional dress up themes each day and a rocket launch at the end of camp.

The students will launch their own handmade rockets during camp on Saturday, June 4th. This event will take place at the local Mary S. Young Park and will follow all guidelines set by the West Linn Wilsonville School District. More information will be provided below on the specific time and location of this exciting “field day” opportunity.

Here is the weekly schedule for your student.

Monday	Wednesday	Saturday
--------	-----------	----------

<u>May 23rd</u> 4:00-7:30 Crazy sock day Meet the team! Main lesson 4:15-6:15 Mini lesson 6:55-7:30 Pick up 7:30-7:45	<u>May 25th</u> 4:00-7:30 Crazy hat/hair day Main lesson 4:15-6:15 Mini lesson 6:55-7:30 Pick up 7:30-7:45	
---	---	--

Young Park 9:00-12:00 Student-made Rocket Launch 12:00-1:00
--	---	---

We will be providing a snack during camp, however we will not be providing dinner for the students. Additionally, students will need to wear closed toed shoes and keep any long hair tied back during any contact with machinery in our lab.

We are very excited for this experience, and we hope to see you all soon! Please feel free to contact us at wlhsfrc@gmail.com with any questions or concerns.
